Foreign Miscellany.

Lordon, 25.—In the House of Com-mons Sir Charles Dilko stated that government was not in communication with the United States upon the question of the abrogation of the Clayton Bulwer ready.

of the abrogation of the Clayton Bulwer treaty.
Gradstone announced that government expects, within a short time, to receive snewers of certain powers who have been invited to perticipate in the proposed conter ed action, with regard to the Berlin treaty. When these are received Goschen's instructions will be completed, and will probably be presented to the house with other eastern papers.

Earl Granville received, to-day, at the foreign effice a deputation of members of Parliament on the subject of the mediation of the British government between Chili and Peru The subject will be discussed in Parliament.

A private report states that Earl Granville told the parliamentary deputation that he would, if a favorable opportunity offered, do his atmost to bring about mediation between the South American beliggrenits.

Berlin, 25.—Intelligence is received from Paris to the effect that Prance reposed that the international commission, which was to deal with the rectification of the Greek frontier, be abandand and indeed that a propagatory.

sion, which was to deal with the rectification of the Greek frontier, be abandoned, and instead that a supplementary conference of the powers meet immediately to stille the question; also, that England and rome other powers had already assented to this proposal and the assent of the remainder was confidently expected.

The proposal to present indentical notes to the Porte has fallen through, the assent of all signatory powers not having been obtained.

The election at Heutlingin, Wurtemburg, resulted in the return of the popular, if not democratic candidate, by \$600 votes against 3,020 polied by the imperialists candidate. On the other hand a clerical has been chosen at Passau, Bavaria, by 7,495 votes against 1,700, inhoriously strajed together by the liberal candidate.

Rome, 25.—Italy has taken the initiative in regard to the claims to be presented to Chilli for compensation to foreigners in consequence of the bombardment of various towns in Perue and Bolivia. France and Eugland have adhered to Italy's course.

King Humbert has reappointed Signor Tacchio president of the senate.

bassy.

Government has resolved to banish foreign socialists who are most active in promoting agitation.

Rome, 25.—All constituencies but one have been heard from. The ministers have a bare majority of twenty-lour. It appears evident that the leaders of the two oppositions are determined to provoke another crisis as quickly as possible.

New York Stocks.

New York, 26—The World says: The stock market, after being depressed in the early part of yesterday, suddenly railfied, and amid great excitement advanced from 2 to 8 per cent, above the lowest point. Their is a was due to a report that Gould and Keene had made up their difficulties, if they had any, and that a concerted buil movement had heen determined upon. It was also said that large blocks of stocks had been derivered through Keene's kindness to Mr. Coaner, Gould's broker, to enable him to cover his shorts. At the offices of both the principals it was denied that any conference had been held. A friend of Gould's said that the rise was due to Cammack frovering 10,000 shares of Western Union and 5,000 shares of Western Union and 5,000 shares of the Shore and intimidated the smaller fry, but that both Gould and Keene were free sellers at the advance towards the close of business.

Murderous Apaches.

Santa Fe, N. M., 25.—Hatch reached Ojo Collente on Friday morning, where he was joined by his Indian scouts who left Victoria's trail a few miles north. Hatch at once put scouts on the trail again, he having to wait a day or two for his exhausted command which is nearly dismounted. Since leaving Mcccolara Agency, Hatch has marched over 1,000 miles of mountaness country. Victoria and his men left a large number of dead animals in their track. An Indian recently killed was shown to be a Commanche. Victoria most certainly has as large a force as Hatch. Every ranch but one in the vicinity of Telecosa has been cleased out by Apaches, who have murdered seventy-eight whites since May.
